5. PUBLIC QUESTION TIME

Question
Mr Ken Betts, resident of Seddon, asked the following questions:

1. 'Lease and Licence Policy' is listed on tonight's Agenda. What does it refer to?
2. Item 9.11 on Agenda – 'Federal Election Advocacy'. Does this relate to previous Lobbying (Federally) for more support for the Metro West Melbourne?
3. And could part of question 1 – can any not-for-profit organisation or charity apply for Council owned property lease assistance?

Response
The Director Corporate Services, Ms Celia Haddock noted that the Lease and Licence Policy covers the property that Council owns and the rental amounts that are made available for lease. Ms Haddock advised that there are three categories in the policy, including not-for-profit, not-for-profit with a small budget level and commercial rentals. When a property becomes available there is an Expression of Interest process and tender process that is carried out.

The Chief Executive Officer, Mr Stephen Wall, advised that the Federal Advocacy item on the Agenda related to issues that Council will advocate to the Federal Government on.

Question
Ms Maria Fuzgo, resident of Yarraville, asked the following questions:

1. Why does the Council send a valuer to inspect my property on this inside. This has never been done before. The only internal valuation is done by a Real Estate Agent when you want to sell, and I'm certainly not selling now or ever.
2. Does the Council think that getting an inside value of someone's home will determine whether we are able to pay these unrealistic amounts by the way we live and by the size of our home?
3. Does Council realise that rate charges have gone up by 18-25%? How are some people and pensioners supposed to pay these amount? Does this mean if you pay you stay, if you can't, you sell?
Response
The Chief Executive Officer, Mr Stephen Wall confirmed that a valuer will go into a property for further inspection when a valuation is contested. Mr Wall noted that this would suggest Ms Fuzgo had contested the valuation of her property. To get the most accurate valuation the Valuer-General will send a Valuer out to inspect the property.

Mr Wall advised that every revaluation year, which previously has been run on a two-year cycle, the valuers will base the modelling on the market forces within the City, and don’t physically inspect the properties. When a valuation is contested, the valuer does a follow up visit and inspect the inside of the property. The purpose of this is to get absolute clarity around the size of the property and how it relates to market forces.

Mr Wall further noted that values in the municipality have gone up by more than 25% in certain areas of the city.

Question
Ms Maria Stogiannis, resident of Yarraville, asked the following questions:

1. What’s happened with the outcomes of the Rates Forum?
2. Disrepair of fences at the cemetery fences are falling apart. Who is in charge of looking after the cemetery?
3. What is happening with the results of the inspections of properties?

Response
The Chief Executive Officer, Mr Stephen Wall noted that a range of different reports regarding rates were coming to Council and the methods of addressing the issue of the disparate impact of rates in the City. There is a report in the Agenda proposing in-principle to move to the Capital Improved Value system as opposed to the Net Annual Value system and that will be considered. There were 748 objections to valuations across the City. The Valuer-General has employed additional staff to deal with the amount of valuation contesting requests. Mr Wall noted that approximately 30% have been granted a change to their valuation.

Mr Wall continued by noting that the cemetery is currently managed by the Greater Melbourne Cemetery Trust. Council had entered into an agreement with the Greater Melbourne Cemetery Trust to look after the cemetery. Mr Wall noted that the comments will be referred on to them.

It was further noted by Mr Wall that every revaluation year, which previously has been run on a two-year cycle, the Valuers will base the modelling on the market forces within the city, and don’t physically inspect the properties. When a valuation is contested, the Valuer does a follow up visit and inspects the inside of the property. The purpose of this is to get absolute clarity around the size of the property and how it relates to market forces.
EXTENSION OF PUBLIC QUESTION TIME

A motion was moved by Cr Sarah Carter, seconded by Cr Cuc Lam, that Council extend Public Question time by 15 minutes.

CARRIED

Question
Ms Jane Karslake, of the Australian Services Union, asked the following questions:

1. The Victorian Auditor General's report on public participation and community engagement in local government notes that "the life experiences of community...can make a valuable contribution to decision making and an open deliberative process can enhance stakeholders perception of the credibility of a decision." It goes further to identify an absence of community participation can alienate community and undermine trust. In light of this, can you outline how you have encouraged community participation in this decision?

2. Maribyrnong City Council shows a consistent budget forecast about 15%; adjusted underlying results (last three years and forecasted 3 years) demonstrate Council can fund their ordinary business activities and meet community service needs. What is the financial imperative for Councillors to sub-contract their community care?

Response
The Chief Executive Officer, Mr Stephen Wall noted that there was a lot of consultation around the issue regarding service delivery for home support services last three years.

The Manager Community Development Positive Ageing and Inclusion, Ms Bridget Monro-Hobbs provided further detail on Council's community engagement including full community consultation. This included advertising a community forum which had no response. Following this, Council looked at other mechanisms including targeted consultation through the Older Persons Reference Group, and using Council's facilitated consultation through Your City, Your Voice. Council also engaged Our Say and canvassed the community to provide the opportunity to give feedback. In addition, the home support service workers were trained up to speak to Council's clients about the changes and how they felt about the changes. This consultation formed the basis of the report. Council has communicated to their clients throughout the process to keep them informed.

Mr Wall noted that in the rate capping environment, all Council services are under pressure. With rate capping, there is a cost of Council over approximately $90 million over ten years. There are financial pressures on all of Council services and all services are subject to review. Council is currently in the latter stages of preparing its next year budget which will be publically exhibited. There is a broader responsibility of Council to be fiscally responsible.

Question
Ms Jenny Harrison, asked the following questions:

1. Is the Council intending to cease providing aged care services to residents and put this out to external providers?
2. Why has Council not provided opportunity for consultation over this matter?
3. Why are Councils taking such action when others have decided to continue such services?

Response
The Chief Executive Officer, Mr Stephen Wall noted that there is no intention of not providing aged care services to the City. As previously discussed by Ms Monro-Hobbs there has been a long period of consultation, and there will be ongoing consultation. In terms of other Council’s continuing to provide such services, there are some other inner-metropolitan Council’s that have made a decision to leave the service, and others have made the decision to stay, but each decision has been made on a case by case basis.

Question
Ms Maureen Marshall, resident of Maidstone, asked the following question:

1. To date hundreds of petitions have been presented calling on Council to deliver quality in home support services, we are also aware of multiple letters from MP’s calling on Council to do the same. Have Councillors taken this into consideration when making a decision, and how so?

Response
The Chief Executive Officer, Mr Stephen Wall noted that the Councillors and organisation are not blind or deaf to the community comments on these issues and that a range of issues have been taken into account in considering this matter.

EXTENSION OF PUBLIC QUESTION TIME

A motion was moved by Cr Gina Huynh, seconded by Cr Mia McGregor, that Council extend Public Question time by 15 minutes.

CARRIED

Question
Ms Lorraine DiPietrantonio, of the Australian Services Union, asked the following questions:

1. The ASU knows that Council cannot guarantee the terms of employment once the Council agreement has expired (June 2019), why does Council assert that employees will not be worse off under a new employment relationship?
2. Can you explain what information Councillors have received on how employees conditions may be reduced under a new employer’s agreement?

Response
The Chief Executive Officer, Mr Stephen Wall noted that neither of the two questions submitted can be answered during the meeting. Mr Wall commented that Councillors are not the employers of the staff, the CEO is. Mr Wall noted that answering these questions will not be undertaken in an open forum such as this meeting. Mr Wall did confirm that the welfare of his staff is a critical focus for him.

Question
Ms Francis Ryan, asked the following questions:

1. What ‘savings’ does Council anticipate will be made due to the sub-contracting of home care services and how will this money be allocated?
2. What mechanisms will Council put in pace to evaluate the new service provider and will this information be publicly available?

Response
The Chief Executive Officer, Mr Stephen Wall noted that the Council cannot pre-empt a decision for an item that is on the Agenda for the current meeting. Mr Wall noted that all of the aged care services that Council provides is currently at a cost of approximately $2million.

The Manager Community Development Positive Ageing and Inclusion, Ms Bridget Monro-Hobbs noted that the report is primarily focused on home care and personal care but Council offers a range of different community services.

Mr Wall noted that with any contract that is in place with Council would include a range of Key Performance Indicators including the delivery of the service, regular reporting on the performance of contracts, engaging with recipients of contracts and the recipients level of satisfaction with the contract.

EXTENSION OF PUBLIC QUESTION TIME

A motion was moved by Cr Gina Huynh, seconded by Cr Cuc Lam, that Council extend Public Question time by 15 minutes.

CARRIED

Cr Carter left the meeting at 7.28pm and returned at 7.32pm.

Question
Mr Daniel Vasquez, resident of Yarraville, asked the following questions:

1. Given that the High Court of Australia upholds free speech, why is the Code of Conduct for Councils being used as a gagging order preventing them from speaking tonight?
2. Given the alarming statistics of abuse in the private sector of aged care, will this be factored into tonight’s decision?

Response
The Chief Executive Officer, Mr Stephen Wall confirmed that the Local Government Act is quite prescriptive around the responsibilities on the employment of staff and employment responsibility. As an employee of the Council, there is a Code of Conduct that staff have to abide to. Mr Wall noted that as the Chief Executive Officer, he takes the responsibility of staff management very seriously. Mr Wall confirmed that he actively consults with staff and there is a well tried mechanism of consultation for the staff. Mr Wall confirmed that the legislation makes it very clear, that the Councillors are not the employers of the staff.

Mr Wall confirmed that every decision of the Council has the community at its front and centre.
