

— PETITION —

To the Honourable Members of the House of Assembly in Parliament Assembled –

The Petition of the undersigned residents of Adelaide and greater South Australia:

We draw the attention of your Honourable House to the dangerous rises in global average temperature, atmospheric greenhouse gases, and ocean acidity. Around the world climate change impacts are already causing loss of life and destroying vital ecosystems. These impacts are expected to accelerate and have catastrophic effects on the lives of our young people if action is not taken quickly and decisively.

Request

Your petitioners therefore request that your Honourable House will declare that we are facing a Climate Emergency and commit to immediate measures to achieve net-zero carbon emissions in South Australia as quickly as possible and to draw down excess carbon from the atmosphere.
