ICLEI – Climate Change Action Plan - Megan Meaney, Caitlin Rodger, Adlar Gross and Hiba Kariem

Caitlin Rodger introduced the ICLEI Team and provided the objectives of the presentation. She spoke to the development of the Climate Change Action Plan and the various phases involved from December 2019 to present.

She then highlighted the Advisory Tables involved, including the Climate Change Task Force, the Climate Change External Working Group, the Climate Change Internal Working Group and the Climate Change Community of Practice.

Engagement for the Plan was overviewed. It involved online surveys, virtual meetings, written submissions, and online engagement.

A summary of the emissions was provided for both fossil fuels and biogenic emissions. The Corporate emissions summary, emission reduction targets and actions were noted. Further information on emission reduction potential and the implementation framework was provided.

Linda Swanston, Climate Change Manager, then addressed Council and spoke to the importance of immediate action. The core engagement findings and recommended community actions were highlighted. She noted that the Task Force asked for further information on what it would look like to establish interim five-year targets and whether it would be possible to achieve net zero corporately prior to 2050. Staff have since identified that Grey County is on track to achieve net zero by 2046.

Prioritization criteria was then outlined, including relative greenhouse gas reduction potential, cost to implement, community benefit and level of county influence. Five key next steps were then highlighted. The importance of working with indigenous partners was noted.

Questions and comments were addressed regarding sustainable agriculture and working as a partnership with the community, incorporating the declaration of a climate change emergency
with the strategic plan and metrics that will be used going forward. Staff will be examining the recommendations and establish common themes and priorities and incorporate that work into a strategic plan during the next term. There are strong linkages between housing affordability plans and growth management plans.

Discussion occurred on the declaration of an emergency. It was noted that staff are working on a plan to transition the corporate fleet towards more efficient vehicles.

Staff noted that there are upcoming plans for Earth Day. A public facing version of the Climate Change Action Plan will be developed once the Plan is approved which will help initiate conversations with residents on how to get involved. There is an event at the Owen Sound Farmer’s market on Saturday that staff will be attending as well.

Discussion occurred on the infrastructure needed to support the number of electric vehicles as society transitions away from gas powered vehicles. There are not significant subsidies available at this time. There is a need for regular updates as the supply chain and technology changes.

Councillor Soever entered the meeting at this time.

It was noted that ICLEI looked at comparable jurisdictions to provide Grey County with an estimate cost for each action item. More efficient technologies are being proposed that will assist with transitioning away from gas.

The Warden thanked ICLEI for their work, as well as the Climate Change Task Force, Linda Swanston and staff and also Councillor McQueen for bringing forward the proposal for a Climate Change Task Force.

Items for Direction and Discussion

Climate Change Task Force minutes dated April 5, 2022

Main Motion

Moved by: Councillor Carleton Seconded by: Councillor Burley

That the Climate Change Task Force minutes dated April 5, 2022 be adopted as presented; and

That the following resolution contained therein be endorsed:

Whereas the recent Intergovernmental Panel on Climate Change report released in February 2022, indicates that human-induced climate change is causing dangerous and widespread disruption in nature, and affecting the lives of billions of people around the world, and notes that urgent action is required to deal with increasing risks; and

Whereas municipalities will bear much of the financial burden associated with climate change due to the increase in costs of maintaining and upgrading infrastructure such as roads, culverts, bridges and stormwater management systems, costs due to damage caused by flooding, etc.; and
Whereas municipalities are well-positioned to respond to climate change in that over 50% of greenhouse gas emissions are under the direct influence of local governments according to the Federation of Canadian Municipalities;

Be it Resolved That report PDR-CCTF-10-22 regarding the County’s Climate Change Action Plan be received; and

That the Climate Change Task Force recommends that Council declare a climate emergency to deepen the County’s commitment to move forward with the strategies and actions identified in the Climate Change Action Plan, and to work with local municipalities and other community partners, with the support of the federal and provincial government; and

That the Climate Change Action Plan, and a Net-Zero greenhouse gas emissions target by 2050 be endorsed to help guide corporate strategic plans and priorities and that staff also be directed to explore more aggressive corporate target dates and bring updated target reviews each term of Council; and

That the climate change action plan recommendations be supported, and staff be directed to continue and expand work supporting the various actions that are already underway, including the Four Foundational Pillars, and to develop workplans to advance the Five Key Next Steps identified in this report, in collaboration with local municipalities and other community partners; and

That staff be directed to share the Climate Change Action Plan with all member municipalities for information, with a presentation to local councils should that be requested.

Amendment

CW55-22 Moved by: Councillor Carleton Seconded by: Councillor Milne

That clause 6 of the motion be amended to reflect that:

The Climate Change Action Plan be endorsed, and that the following amended community and corporate GHG emissions reduction targets be adopted to guide corporate strategic plans and priorities, and staff be directed to bring an updated plan and target review each term of Council:

- Community GHG emission reductions targets of net-zero by 2050, 75% by 2045, 60% by 2040, 50% by 2035, 30% by 2030 and 15% by 2026
- Corporate GHG emission reduction targets of net-zero by 2045, 70% by 2040, 55% by 2035, 40% by 2030 and 20% by 2026

Delegations continued

Jessica Linthorne, Director – Clean Energy Frontier Update

Jessica Linthorne updated Council on the Clean Energy Frontier program. She spoke to the benefits of clean air and clean energy, and to new opportunities with medical isotopes, waste management, and other clean energy alternatives.

The program began in 2016 and has since been rebranded as the Clean Energy Frontier and continues to be funded by Bruce Power and Bruce County.

Next steps include continuing to promote the area as the Clean Energy Frontier region, engaging with clean energy employers and entrepreneurs, creating awareness of the economic impact in the tri county region, building awareness and confidence among local leaders and equipping them with knowledge and data pertaining to the clean energy sector in this area.

Update from Bruce Power - John Peevers, Community, Media Relations and Economic Development Director – Bruce Power

John Peevers addressed Council on the recent activities of Bruce Power. He noted that Bruce Power was able to provide power and continuity of medical isotope supply during the pandemic and supported communities with personal protective equipment. He noted that the major component replacement project for Unit 6 is on track and planning is underway for Unit 3 to begin in 2023.

He provided further information on the isotope program and noted that Bruce Power is now able to produce Lutetium-177 as well as other new isotopes and are the first commercial power reactor to produce this type.

Efforts to achieve net zero from site operations by 2027 were highlighted. Updates were made to the Visitor Centre during the pandemic. Community support programs were also noted.

There is opportunity for the public to provide feedback and engagement with Bruce Power.

Questions and comments were addressed regarding the proposed deep geological repository and the transition towards additional use of electric vehicles.

Council recessed, then reconvened.
